

FORWARD LOOKING STATEMENTS

Q2 2021 BUSINESS UPDATE

This presentation contains a number of forward-looking statements. Words such as "plan," "believe," "anticipate," "reflect," "invest," "see," "make," "expect," "deliver," "drive," "improve," "intend," "assess," "remain," "evaluate," "establish," "focus," "build," "turn," "expand," "leverage," "grow," "will," and variations of such words and similar future or conditional expressions are intended to identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements regarding the Company's plans, impacts of accounting standards and guidance, growth, legal matters, taxes, costs and cost savings, impairments, dividends, expectations, investments, innovations, opportunities, capabilities, execution, initiatives, and pipeline. These forward-looking statements reflect management's current expectations and are not guarantees of future performance and are subject to a number of risks and uncertainties, many of which are difficult to predict and beyond the Company's control.

Important factors that may affect the Company's business and operations and that may cause actual results to differ materially from those in the forward-looking statements include, but are not limited to, the impacts of COVID-19 and government and consumer responses; operating in a highly competitive industry; the Company's ability to correctly predict, identify, and interpret changes in consumer preferences and demand, to offer new products to meet those changes, and to respond to competitive innovation; changes in the retail landscape or the loss of key retail customers; changes in the Company's relationships with significant customers or suppliers, or in other business relationships; the Company's ability to maintain, extend, and expand its reputation and brand image; the Company's ability to leverage its brand value to compete against private label products; the Company's ability to drive revenue growth in its key product categories or platforms, increase its market share, or add products that are in faster-growing and more profitable categories; product recalls or other product liability claims; the Company's ability to identify, complete, or realize the benefits from strategic acquisitions, alliances, divestitures, joint ventures or other investments; the Company's ability to successfully execute its strategic initiatives; the Company's international operations; the Company's ability to protect intellectual property rights; the Company's ownership structure; the Company's ability to realize the anticipated benefits from prior or future streamlining actions to reduce fixed costs, simplify or improve processes, and improve its competitiveness; the Company's level of indebtedness, as well as our ability to comply with covenants under our debt instruments; additional impairments of the carrying amounts of goodwill or other indefinite-lived intangible assets; foreign exchange rate fluctuations; volatility in commodity, energy, and other input costs; volatility in the market value of all or a portion of the commodity derivatives we use; compliance with laws, regulations, and related interpretations and related legal claims or other regulatory enforcement actions, including additional risks and uncertainties related to any potential actions resulting from the Securities and Exchange Commission's ("SEC") ongoing investigation, as well as potential additional subpoenas, litigation, and regulatory proceedings; failure to maintain an effective system of internal controls; a downgrade in the Company's credit rating; the impact of future sales of the Company's common stock in the public market; the Company's ability to continue to pay a regular dividend and the amounts of any such dividends; unanticipated business disruptions and natural events in the locations in which the Company's customers, suppliers, distributors, or regulators operate; economic and political conditions in the United States and in various other nations where the Company does business; changes in the Company's management team or other key personnel and the Company's ability to hire or retain key personnel or a highly skilled and diverse global workforce; risks associated with information technology and systems, including service interruptions, misappropriation of data, or breaches of security; increased pension, labor, and people-related expenses; changes in tax laws and interpretations; volatility of capital markets and other macroeconomic factors; and other factors. For additional information on these and other factors that could affect the Company's forward-looking statements, see the Company's risk factors, as they may be amended from time to time, set forth in its filings with the SEC. The Company disclaims and does not undertake any obligation to update, revise, or withdraw any forward-looking statement in this presentation except as required by applicable law or regulation.

Non-GAAP Financial Measures

This presentation contains certain non-GAAP financial measures, including Organic Net Sales, Adjusted EBITDA, Constant Currency Adjusted EPS, and Free Cash Flow. These non-GAAP financial measures may differ from similarly titled non-GAAP financial measures presented by other companies. These measures are not substitutes for their comparable financial measures prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and should be viewed in addition to, and not as an alternative for, the GAAP results in this presentation.

These non-GAAP financial measures assist management in comparing the Company's performance on a consistent basis for purposes of business decision-making by removing the impact of certain items that management believes do not directly reflect the Company's underlying operations.

Please see discussion of non-GAAP financial measures and the reconciliations at the end of this presentation for more information.

NON-GAAP FINANCIAL MEASURES

Q2 2021 BUSINESS UPDATE

The non-GAAP financial measures provided in this presentation should be viewed in addition to, and not as an alternative for, results prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

To supplement the financial information provided, the Company has presented Organic Net Sales, Adjusted EBITDA, Constant Currency Adjusted EBITDA, Adjusted EBITDA, Adjusted EBITDA, Constant Currency Adjusted EBITDA, Adjusted EBITDA, Adjusted EBITDA, Constant Currency Adjusted EBITDA, Constant Currency Adjusted EBITDA, Constant Currency Adjusted EBITDA, Adjusted EBITDA, Constant Currency Adjusted EBITDA, Adjusted EBITDA, Adjusted EBITDA, Constant Currency Adjusted EBITDA, Constant Currency Adjusted EBITDA, Adjusted EBITDA, Adjusted EBITDA, Constant Currency Adjusted EBIT

Management uses these non-GAAP financial measures to assist in company's performance on a consistent basis for purposes of business decision making by removing the impact of certain items that management believes do not directly reflect the Company's underlying operations. Management believes that presenting the Company's non-GAAP financial measures (i.e., Organic Net Sales, Adjusted EBITDA, Constant Currency Adjusted EBITDA, Adjusted EPS, and Free Cash Flow) is useful to investors because it (i) provides investors with meaningful supplemental information regarding financial performance by excluding certain items, (ii) permits investors to view performance using the same tools that management uses to budget, make operating and strategic decisions, and evaluate historical performance, and (iii) otherwise provides supplemental information that may be useful to investors in evaluating the Company's results. The Company believes that the presentation of these non-GAAP financial measures, when considered together with the corresponding GAAP financial measures and the reconciliations to those measures, provides investors with additional understanding of the factors and trends affecting the Company's business than could be obtained absent these disclosures.

Organic Net Sales is defined as net sales excluding, when they occur, the impact of currency, acquisitions and divestitures, and a 53rd week of shipments. The Company calculates the impact of currency on net sales by holding exchange rates constant at the previous year's exchange rate, with the exception of highly inflationary subsidiaries, for which the Company calculates the previous year's results using the current year's exchange rate. Organic Net Sales is a tool that can assist management and investors in comparing the Company's performance on a consistent basis by removing the impact of certain items that management believes do not directly reflect the Company's underlying operations.

Adjusted EBITDA is defined as net income/(loss) from continuing operations before interest expense, other expense/(income), provision for/(benefit from) income taxes, and depreciation and amortization (excluding restructuring activities); in addition to these adjustments, the Company excludes, when they occur, the impacts of restructuring activities, deal costs, unrealized losses/(gains) on commodity hedges, impairment losses, certain non-ordinary course legal and regulatory matters, and equity award compensation expense (excluding restructuring activities). The Company also presents Adjusted EBITDA on a constant currency basis. The Company calculates the impact of currency on Adjusted EBITDA by holding exchange rates constant at the previous year's exchange rate, with the exception of highly inflationary subsidiaries, for which it calculates the previous year's results using the current year's exchange rate. Adjusted EBITDA and Constant Currency Adjusted EBITDA are tools that can assist management and investors in comparing the Company's performance on a consistent basis by removing the impact of certain items that management believes do not directly reflect the Company's underlying operations. The Company has revised the definition of Adjusted EBITDA to adjust for the impact of certain legal and regulatory matters arising outside the ordinary course of its business, as management believes such matters, when they occur, do not directly reflect the Company's underlying operations.

Adjusted EPS is defined as diluted earnings per share excluding, when they occur, the impacts of restructuring activities, deal costs, unrealized losses/(gains) on commodity hedges, impairment losses, certain non-ordinary course legal and regulatory matters, losses/(gains) on the sale of a business, other losses/(gains) related to acquisitions and divestitures (e.g., tax and hedging impacts), nonmonetary currency devaluation (e.g., remeasurement gains and losses), debt prepayment and extinguishment costs, and certain significant discrete income tax items (e.g., U.S. and non-U.S. tax reform), and including, when they occur, adjustments to reflect preferred stock dividend payments on an accrual basis. The Company believes Adjusted EPS provides important comparability of underlying operating results, allowing investors and management to assess operating performance on a consistent basis. The Company has revised the definition of Adjusted EPS to adjust for the impact of certain legal and regulatory matters arising outside the ordinary course of its business and certain significant discrete income tax items beyond U.S. tax reform, as management believes such matters, when they occur, do not directly reflect the Company's underlying operations.

Free Cash Flow is defined as net cash provided by/(used for) operating activities less capital expenditures. The Company's core operating performance, the cash-generating capabilities of the Company's business operations, and is one factor used in determining the amount of cash available for debt repayments, dividends, acquisitions, share repurchases, and other corporate purposes. The use of this non-GAAP measure does not imply or represent the residual cash flow for discretionary expenditures since the Company has certain non-discretionary obligations such as debt service that are not deducted from the measure.

We provide guidance for Organic Net Sales, Adjusted EBITDA, Constant Currency Adjusted EBITDA, Adjusted EBIT

See the attached schedules for supplemental financial data, which includes the financial information, the non-GAAP financial measures and corresponding reconciliations to the comparable GAAP financial measures for the relevant periods.
