

THE KRAFT HEINZ COMPANY

**Q1 2018 UPDATE** 

May 2, 2018

#### SAFE HARBOR STATEMENT

Kraftellinz

This webcast presentation contains a number of forward-looking statements. Words such as "build," "gain," "drive," "invest," "grow," "progress," "expand," "become," "execute," "enable," "continue," "expect," "opportunity," "deliver," "build," "reinvent," "leverage," "will," and variations of such words and similar expressions are intended to identify forward-looking statements. Examples of forward-looking statements include, but are not limited to, statements regarding Kraft Heinz's plans, integration, savings, investments, execution, growth, leverage, innovation, credit rating, brands and efficiencies. These forward-looking statements are not guarantees of future performance and are subject to a number of risks and uncertainties, many of which are difficult to predict and beyond Kraft Heinz's control. Important factors that affect Kraft Heinz's business and operations and that may cause actual results to differ materially from those in the forward-looking statements include, but are not limited to, increased competition; Kraft Heinz's ability to maintain, extend and expand its reputation and brand image; Kraft Heinz's ability to differentiate its products from other brands; the consolidation of retail customers; Kraft Heinz's ability to predict, identify and interpret changes in consumer preferences and demand; Kraft Heinz's ability to drive revenue growth in its key product categories, increase its market share, or add products; an impairment of the carrying value of goodwill or other indefinite-lived intangible assets; volatility in commodity, energy and other input costs; changes in Kraft Heinz's management team or other key personnel; Kraft Heinz's inability to realize the anticipated benefits from its cost savings initiatives; changes in relationships with significant customers and suppliers; execution of Kraft Heinz's international expansion strategy; changes in laws and regulations; legal claims or other regulatory enforcement actions; product recalls or product liability claims; unanticipated business disruptions; failure to successfully integrate the business and operations of Kraft Heinz in the expected time frame; Kraft Heinz's ability to complete or realize the benefits from potential and completed acquisitions, alliances, divestitures or joint ventures; economic and political conditions in the nations in which Kraft Heinz operates; the volatility of capital markets; increased pension, labor and people-related expenses; volatility in the market value of all or a portion of the derivatives Kraft Heinz uses; exchange rate fluctuations; risks associated with information technology and systems, including service interruptions, misappropriation of data or breaches of security; Kraft Heinz's inability to protect intellectual property rights; impacts of natural events in the locations in which Kraft Heinz or its customers, suppliers or regulators operate; Kraft Heinz's indebtedness and ability to pay such indebtedness; tax law changes or interpretations; and other factors. For additional information on these and other factors that could affect Kraft Heinz's forward-looking statements, see Kraft Heinz's risk factors, as they may be amended from time to time, set forth in its filings with the Securities and Exchange Commission, including our most recently filed Annual Report on Form 10-K. Kraft Heinz disclaims and does not undertake any obligation to update or revise any forward-looking statement in this presentation, except as required by applicable law or regulation.

#### **Non-GAAP Measures**

This webcast presentation also includes non-GAAP financial measures, including Organic Net Sales, Adjusted EBITDA and Adjusted EPS. These non-GAAP financial measures should not be considered replacements for, and should be read together with, the most comparable GAAP financial measures. A reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures can be found in the Appendix to this presentation.

### **RESULTS CONSISTENT WITH 2018 PLAN**

- Q1 financials in-line to slightly-better-than expectations
  - Net Sales held back by anticipated transitory headwinds in the U.S., Canada, Brazil
  - EBITDA reflected expected near-term pressures in U.S. and ROW from combination of cost inflation and aggressive investment agenda
- Improving consumption trends in most countries and most key categories
- Significant progress in building capabilities for category and brand advantage

#### MAKING PROGRESS AGAINST BECOMING THE BEST

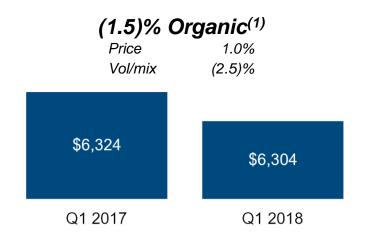

# Kraft Clanz

### FIRST QUARTER FINANCIAL SUMMARY

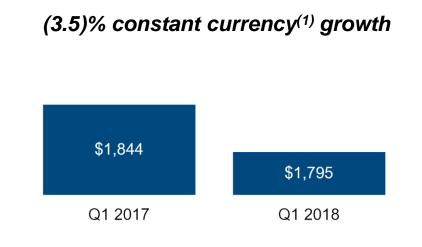

#### **NET SALES**

- Favorable pricing driven by gains in U.S. and ROW segments
- Lower volume/mix reflected anticipated headwinds in the U.S. and ROW
  - Overshadowed solid retail gains in Canada, EMEA and Foodservice growth in the U.S. and EMEA.

#### ADJUSTED EBITDA<sup>(1)</sup>

- Anticipated headwinds from a combination of higher input costs, particularly freight and resin, lower volume/mix and aggressive investments behind strategic initiatives
- More than offset solid gains from productivity and pricing

- Gains primarily driven by lower effective tax rate versus prior year period
- Other below-the-line items, in aggregate, neutral versus prior year

(1) Non-GAAP financial measure. See Appendix to this presentation for more information, including GAAP to Non-GAAP reconciliations.

## **CONSISTENT WITH PREVIOUS EXPECTATIONS**

- Still expecting atypical H1:H2 split of Net Sales and EBITDA
  - Compared to 50:50 Net Sales and EBITDA split in 2017
  - Q2 to face similar set of headwinds as Q1
- Several tangible drivers to deliver top- and bottom-line growth in H2
  - H1 transitory headwinds turn positive
  - U.S. innovation, category management, go-to-market investments gain traction
  - International growth accelerates from strong innovation, whitespace pipeline
  - Improved commercial growth leveraging greater net productivity
- Targeting positive organic EBITDA growth, strong Adjusted EPS growth
- Strong cash generation to reflect lower capex, lower cash taxes, working capital gains

# Kraft*Heinz*

THE KRAFT HEINZ COMPANY

#### **Non-GAAP Financial Measures**

To supplement the financial information, the Company has presented Organic Net Sales, Adjusted EBITDA, Constant Currency Adjusted EBITDA, and Adjusted EPS, which are considered non-GAAP financial measures. The non-GAAP financial measures provided should be viewed in addition to, and not as an alternative for, results prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") that are presented in this press release. The non-GAAP financial measures presented may differ from similarly titled non-GAAP financial measures presented by other companies, and other companies may not define these non-GAAP financial measures in the same way. These measures are not substitutes for their comparable GAAP financial measures, such as net sales, net income/(loss), diluted earnings per share, or other measures prescribed by GAAP, and there are limitations to using non-GAAP financial measures.

Management uses these non-GAAP financial measures to assist in comparing the Company's performance on a consistent basis for purposes of business decision making by removing the impact of certain items that management believes do not directly reflect the Company's underlying operations. Management believes that presenting the Company's non-GAAP financial measures is useful to investors because it (i) provides investors with meaningful supplemental information regarding financial performance by excluding certain items, (ii) permits investors to view performance using the same tools that management uses to budget, make operating and strategic decisions, and evaluate historical performance, and (iii) otherwise provides supplemental information that may be useful to investors in evaluating the Company's results. The Company believes that the presentation of these non-GAAP financial measures, when considered together with the corresponding GAAP financial measures and the reconciliations to those measures, provides investors with additional understanding of the factors and trends affecting the Company's business than could be obtained absent these disclosures.

Organic Net Sales is defined as net sales excluding, when they occur, the impact of acquisitions, currency, divestitures and a 53rd week of shipments. The Company calculates the impact of currency on net sales by holding exchange rates constant at the previous year's exchange rate, with the exception of Venezuela following the Company's June 28, 2015 currency devaluation, for which the Company calculates the previous year's results using the current year's exchange rate. Organic Net Sales is a tool that can assist management and investors in comparing the Company's performance on a consistent basis by removing the impact of certain items that management believes do not directly reflect the Company's underlying operations.

Adjusted EBITDA is defined as net income/(loss) from continuing operations before interest expense, other expense/(income), net, provision for/(benefit from) income taxes, and depreciation and amortization (excluding integration and restructuring expenses); in addition to these adjustments, the Company excludes, when they occur, the impacts of integration and restructuring expenses, merger costs, unrealized losses/(gains) on commodity hedges, impairment losses, losses/(gains) on the sale of a business, nonmonetary currency devaluation (e.g., remeasurement gains and losses), and equity award compensation expenses (excluding integration and restructuring expenses). The Company also presents Adjusted EBITDA on a constant currency basis. The Company calculates the impact of currency on Adjusted EBITDA by holding exchange rates constant at the previous year's exchange rate, with the exception of Venezuela following the Company's June 28, 2015 devaluation of the Venezuelan bolivar and remeasurement of assets and liabilities of its Venezuelan subsidiary, for which it calculates the previous year's results using the current year's exchange rate. Adjusted EBITDA and Constant Currency Adjusted EBITDA are tools that can assist management and investors in comparing the Company's performance on a consistent basis by removing the impact of certain items that management believes do not directly reflect the Company's underlying operations.

Adjusted EPS is defined as diluted earnings per share excluding, when they occur, the impacts of integration and restructuring expenses, merger costs, unrealized losses/(gains) on commodity hedges, impairment losses, losses/(gains) on the sale of a business, nonmonetary currency devaluation (e.g., remeasurement gains and losses), and U.S. Tax Reform, and including when they occur, adjustments to reflect preferred stock dividend payments on an accrual basis. The Company believes Adjusted EPS provides important comparability of underlying operating results, allowing investors and management to assess operating performance on a consistent basis.

See the attached schedules for supplemental financial data, which includes the financial information, the non-GAAP financial measures and corresponding reconciliations to the comparable GAAP financial measures for the relevant periods.
